

The Election.

We are not able to give very full returns of the election this week, but will sum up the various reports that we find, and next week endeavor to give an accurate statement of results.

The great gun lately cast at Alger's foundry, and described in the Post, was fired a few times at South Boston Point yesterday afternoon. Shells, 12 inches in diameter, and 180 pounds in weight, were thrown various distances, according to the charge, elevation, and length of fuse used.

The Secretary of the Treasury has been trying to make a loan of three or four millions of the City Banks, at 5 per cent. The Banks refused; but offered to lend for 6 per cent.

There is a very pretty young girl in New York, who exhibits in public the religious dance of the shakers. A contemporary remarks—"The ease, grace, fullness and beauty with which she moves in the whirling dance is not only unsurpassed, but perfectly unapproachable, at least out of the pale of Shakerism."

A lady who, with her daughter came up in the steamer Belts, made a complaint at the police office, yesterday, against a canal runner named J. W. Dailey, for committing a rape upon the person of her daughter, in the canal office on the pier. Dailey was arrested and held to bail, and we hope he will receive the punishment he so richly deserves.—Albany Atlas, 16th.

The Executive Committee of the New York State Society, for the Abolition of the Death Penalty, have recommended that a public meeting for the discussion of the subject be held on Friday evening, the 20th of November next, in every town and ward in the state; that the subject be introduced for discussion into the various debating societies; that editors open their papers to articles upon the subject; that petitions be sent in early to the Legislature; that lectures be given at stated periods, &c., &c.

The Supreme Court sitting at Rochester—Chief Justice Bronson presiding—has made an important decision. In an action for a penalty under the new License Law, the Court, held that strong Beer is "strong and spirituous liquor," within the meaning of the act, and that an action lies for retailing it.

Wayne County.—Most of the Democratic ticket elected.

Monroe County.—McClelland's majority is 700 or 800.

Lewis County.—McClelland's majority 300.

Jackson County.—Democratic majority 100.

Clinton County.—Gordon, Whig, has a small majority for Congress.

Ontario County.—Wissner, Whig, has a small majority over Bingham for Congress.

Madison County.—is said to have gone Whig.

The Liberty Vote.

We are almost entirely without news of the Liberty vote. In this town it was about 64 for Stewart, for Congress, and for Representatives.

The special election for Judge of Probate for this County is to take place on Saturday the 14th instant. The Whigs intend to support Human Ticknor, of Pittsfield; the Democrats, E. M. Skinner, of Ypsilanti.

The New York Convention.

We quoted last week the clause of the new Constitution by which any person of requisite learning and ability may practice law in all the courts of that State.

Mr. Dixon, of Lyon, Massachusetts has made a cannon which, by the simple motion of a brake, will prime, load and discharge itself.

Another point was also raised in this case, viz: whether the plaintiff should state what kind of liquor was sold. The Chief Justice thought he need not, on account of the difficulty in the proof, remarking that men did not always know what kind they did drink.

Novel Case.

A Mr. Welsh, in New York, has lately married a young girl who was a bound apprentice to the shoe-binding. The boss shoe-maker has sued the bridegroom, and the case is to be tried whether he can take the bride back to serve her time.

Another immense Steamer, said to be the largest in the world, has just been completed at New York. She is called Isaac Newton, and is to run between New York and Albany.

By a vote of 80 to 16, the Constitutional Convention have declared that there shall be no bank of issue in the State, nor shall the legislature have power to give banking privileges to any corporation or persons.

Future Debt.

The State shall contract no debt exceeding \$1,000,000, unless to meet the exigencies of War, except for some single specified object, and with the express approval of the People signified by a direct vote; and a direct tax must at the time be levied sufficient to pay the annual interest of said debt and extinguish the principal within eighteen years.

Banking.

No special charter for Banking purposes is to be granted, but Banks may be established under general laws.

The Legislature shall exact ample security for the payment of their notes and obligations, and shall in no case sanction a suspension of specie payments by them or any of them, directly or indirectly.

Stockholders in Banks to be individually liable to the amount of their several shares themselves. In case of Insolvency, billholders have preference of all other creditors.

Amendments to the constitution may be made as heretofore, or the Legislature and People may at any time unite to call a Convention as this one was called; and in 1866, and in every twentieth year thereafter, the People shall vote directly to call or not to call a Constitutional Convention.

Domestic News.

Vermont.—A Machine for cutting wrought nails has been invented by Mr. H. Holcomb, of Brandon, Vermont, which with two men will make as many nails per day as forty or fifty men can do, and with a great saving of iron.

Massachusetts.—It is understood that John Redman, who died in Boston last week, has left to the Massachusetts General Hospital some two hundred thousand dollars, to be available after the demise of sundry persons to whom annuities have been left.

A chimney has just been placed in the factory of the carpet company in Lowell, which is intended to carry off the smoke of 24 steam boilers. It is 12 feet 6 inches square at the base, and 7 feet 6 inches square at the top, and its height is about 120 feet. It is calculated that over 150,000 bricks have been used in its construction, the weight of which, together with the mortar, is between 5 and 600 tons.

Connecticut.—Two men, Holcomb and Granby Olcott of Hartford, having had some difficulty, repaired to a room by themselves in the United States hotel, on Wednesday last week, essaying to effect a settlement of their difficulties. Shortly after, a report of a pistol was heard in the room, which drew to it the inmates of the house, when they found both lying on the floor nearly dead. It is supposed that Holcomb first shot Olcott and then himself.

New York.—New York is heavily taxed.

The Comptroller has asked for \$2,520,750 94—\$53,192 for the police; common schools \$220,620 62; lamps and

Pennsylvania.—A Mr. Wise, of Lancaster, Penn., has invented a machine

by which Vera Cruz may be captured—in theory. It is an armed balloon, with ten tons of percussioned bomb shells and torpedoes, which guided by a cable five miles in length, could hover like a cloud of destruction over the devoted city.—The balloon of course contains considerable gas and so does the description of it.

Maryland.—A Wilmington paper says that the slaves are running away by families on the Eastern shore of Maryland. In Sassafras neck, which contains about twelve hundred square miles of territory, 200 have escaped within a year.

Kentucky.—A wealthy man in whom he fell in love not long ago.—While the honey-moon was yet bright, a man from Tennessee came along, and found the wife to be a runaway belonging to him.

Ohio.—The journeymen tailors in Cincinnati were on a strike last week for higher wages, when their employers had them arrested for conspiracy.

Missouri.—One speculator in Missouri is said to have cleared \$2700 in 30 days in buying oxen for the Government. Uncle Sam bleeds for the war, and few but the speculators derive any profit by it.

Wisconsin.—A valuable iron ore has been discovered in Dodge County. When analyzed it was found to yield 90 per cent. The deposit in the mine is said to be about 20 feet thick. Its length and breadth has not been ascertained.

Commercial.

ANN ARBOR, Nov. 5, 1846.

The Wheat market seems to have settled down at 60 cents. We notice that the receipts at this price are very considerable.

Buffalo, Nov. 2, 4,500 bushels Cleveland Wheat bought at 80 cts; 3,800 were sold for 77 cts. 1,000 barrels Michigan Flour brought \$4.50. 650 barrels Salt sold at \$1 12.

New York, Oct. 31. Flour sold to day, 13,000 barrels, at \$5 94 to \$6 00. Wheat \$1 10 to \$1 12. Pots are heavy at \$4 75.

CONSECRATION FOR OREGON.—A very imposing ceremony took place on Sunday morning last in the Roman Cathedral at Montreal—the elevating to the episcopal dignity of the Rev. Mr. Blanchet, one of the canons, who was nominated at Rome for the office of Archbishop of Oregon. His title is "Archbishop of Wallawalla." Seven dioceses are now formed in Oregon, and provisionally three prelates superintend them, the Archbishop and two Bishops.

Letters from China give information of many conversions in the Celestial empire through the labors of the Catholic missionaries. Throughout the province of King-Nan, and in Nankin, the capital of that province, the cause of Christ is making great progress against Buddha. The number of missionaries now going through China in behalf of the Catholic faith, is eighty, of whom some sixty are French and twenty Italians.

GLASS CUTTING.—At a late meeting of the Royal Polytechnic School of London, Dr. Ryan illustrated a method of cutting and boring glass by common iron instruments, employing, however, a solution of camphor and turpentine, instead of the usual preparations, such as emery, sulphate of copper, &c. By keeping the instrument moistened with the camphorated turpentine the Doctor showed that glass might be cut and bored as readily as any of the metals. This is a secret well worth knowing.

A ruffian lately bit off a man's ear.—Strange to say, he was bound over to keep the peace. Wonder if he was.

FRUIT IN ENGLAND.—It is no unusual thing for an English lady to have on her table, at a party, fruit which costs from \$2000 to \$3000. A dinner was given by an English nobleman some years since, for which the fruit alone cost \$30,000.
