

SIGNAL OF LIBERTY.

Saturday, Nov. 14.

\$1.50 a Year in Advance.

How Can Slavery be Peacefully Abolished?

In answering this question, we will follow the example of certain preachers, and treat of the subject first negatively, and then affirmatively.

The control of the National and State Governments must be taken from the hands of the Slaveholders.

The Slave Laws must be repealed. Now concerning these prerequisites to Emancipation, we remark,

1. Abolition cannot be attained by moral suasion only. Somebody must vote for the repeal of the Slave Laws, and the election to office of antislavery men.— This is a clear case.

2. It cannot be done merely by the action of religious bodies. Antislavery action, in all denominations, is desirable; but, of itself, without being accompanied by political votes, the strongest resolutions will never repeal a single slave law.

3. It cannot be done by advocating the Dissolution of the Union. We do not say that a dissolution might not be the cause of subsequent abolition; but we see not how a peaceable Dissolution could possibly be effected.

4. It cannot be done by elevating Slaveholders of any party to power.— Satan will not cast out Satan. They lie, or are grossly deceived, who pretend that he will. Slaveholders will not repeal the slave laws.

5. It cannot be done by concentrating all the antislavery men into one permanent national party, which will act only on the One Idea of Negro Slavery.

6. It cannot be done by concentrating all the antislavery men into one permanent national party, which will act only on the One Idea of Negro Slavery.

7. It cannot be done by concentrating all the antislavery men into one permanent national party, which will act only on the One Idea of Negro Slavery.

8. It cannot be done by concentrating all the antislavery men into one permanent national party, which will act only on the One Idea of Negro Slavery.

9. It cannot be done by concentrating all the antislavery men into one permanent national party, which will act only on the One Idea of Negro Slavery.

10. It cannot be done by concentrating all the antislavery men into one permanent national party, which will act only on the One Idea of Negro Slavery.

11. It cannot be done by concentrating all the antislavery men into one permanent national party, which will act only on the One Idea of Negro Slavery.

Neither do our remarks apply to a party avowedly temporary in its character, which acts merely as a balance-of-power party—sometimes voting for its separate candidates, and sometimes uniting with other political combinations, as it can best make its influence felt upon them.

The propriety of re-organizing the Liberty party on the basis proposed by Mr. Goodell and others, we will consider next week.

Railways and the Sabbath.

Every innovation or change upon the old routine of society usages has various and important bearings upon the general welfare. Many of these are not very apparent at first sight.

The Jews.

The following story, from the Boston Transcript, is going the rounds of the papers. There may be something in it; but the article looks to us very much like a humbug, got up to gull the simple.

The London Jewish Chronicle of the 12th, publishes the contents of an interesting letter from Jerusalem. The brethren of the ten tribes it seems are to be hunted out, and for this purpose the Jews in England intend to exert a hearty co-operation with those settled in other lands.

It is said these ten tribes constitute an empire of their own, have their own king and possess great quantities of ammunition. They are of high stature, and have altogether an athletic appearance.

We wonder where these remarkable people live, who seem to be so entirely unknown to mankind, and yet their government, religion, wealth, taxation, &c., are all familiar to the writer.

For the Signal of Liberty. To the oft repeated assertion of the opposers to the immediate emancipation of the slave, viz: that he is not yet sufficiently elevated in moral condition to appreciate freedom, we find this apropos answer in Macaulay's Essay on Milton:—

"Many politicians of our time are in the habit of laying it down as a self-evident proposition, that no people ought to be free till they are fit to use their freedom. The maxim is worthy of the fool in the old story, who resolved not to go into the water till he had learned to swim!

Ann Arbor, Nov. 1846. Multiply the figure 9 by any other single figure and the two figures comprising the product, added together, will make 9.

COSTLY.—The trial of McNulty, the defaulting Clerk of the House of Representatives, is said to have cost the United States \$17,000.

Thomas Clarkson.

The last arrival from England brought news of the death of Thomas Clarkson, so long known in the antislavery enterprise. The following particulars of his life from the London Spectator, will interest our readers.

The venerable Thomas Clarkson was born at Wisbeach, on the 28th of March, 1760. He was the son of a gentleman who held the Mastership of the Free Grammar School in that town. His education, which had been under the father's eye, was completed at St. John's College, Cambridge.

The preceding year Mr. Clarkson had gained the first prize for the Latin dissertation—"Is it right to make slaves of others against their will?" In the preceding year Mr. Clarkson had gained the first prize for the Latin dissertation.

He very soon formed an alliance with the celebrated William Wilberforce, who, in 1787, undertook to bring the subject before Parliament.

Clarkson's exertions during the whole of this struggle were untiring. But they were not before the public, and failed therefore of being duly appreciated at the time!

The editor of the True Democrat, the anti-slavery Whig paper of Ohio, being asked to reconcile his practice of voting for a slaveholder in 4F with a refusal to vote for one in future, replies:—

"In 1844 our immediate object was to keep out Texas and prevent slavery's grasping the U. S. Senate and controlling its decision and through it the legislation of Congress.

This is all very ingenious; but will scarcely bear examination. Could a Bank owner be trusted to act against the extension of Banks, who fully avowed that he would 'glad to see' that extension on certain conditions? But there is no use in discussing this old affair. We are 'glad to see' the Whig Democrat refusing all support to a slaveholder.

A vessel has arrived at Liverpool from Van Diemen's Land, bringing 5,340 packages of wheat.

From the Army.

Major Forsyth writes of the Georgia Regiment,—

"It makes one's heart bleed to witness the sufferings of these poor fellows. In camp, you must know, few of the conveniences considered necessary to the ill at home can be had.

At letter-writer thus describes the evacuation of Monterey by the Mexicans:— And now was presented a scene that I can never forget.

The army was accompanied by a great many females; officers' wives on horseback, their faces muffled, and with hats on, soldiers' wives mounted on donkeys or on foot, some of them carrying burdens that I would scarcely think of packing upon mules.

A Baltimore volunteer thus describes that part of the battle in which he participated. "You may, probably, wish to know how a young soldier feels when he smells powder for the first time—I will tell you.

The following notice of "the seat of war" is from the Washington Union:—"The State of New Leon (Nueva Leon) extends over a large part of the plain of Monterey, and the mountain track lying between it and the Rio del Norte.

Monterey, where the last battle was fought, and which is now in possession of the American army, is the capital of the State of New Leon, and contains about 15,000 inhabitants.

Saltillo, the late capital of the State of Coahuila, which Gen. Taylor has ordered next to take, is situated at the southern extremity of the State, on the side of a hill.

Execution of a Sailor. Off VERA CRUZ, Sept. 25, 1846.

On the 17th inst. I was one of the edified witnesses of the supremacy of the law over natural right.

All labor in the different vessels was forbidden for the day, and the crews were directed to assume their holiday attire. At 11 A. M. the signal, "Prepare to execute the sentence of the Court Martial," was displayed at the mizen of the Cumberland, when a yellow flag was

hoisted at the fore yard arm of the St. Mary's. The officers and crews of all the vessels at the anchorage were then mustered on deck, and distributed in such places as would best enable them to take as much of the spectacle in view as possible.

Another correspondent writes from Monterey:—"For four or five days past, as I have already informed you, we have been on short allowance of food, and have therefore had to resort to smuggling; in other words, some fine Mexican steers have been slaughtered to appease the hunger of our men.

Our countrymen at home, I am sure, have no idea of our sufferings. I am equally certain that they might have been prevented if proper means were employed by those whose business it is to see to our wants.

I gave you an idea in my last of the excitement which prevailed in camp in regard to Gen. Butler. It received ten times the force yesterday by a report that got out that Gen. Taylor was about to throw out the command.

The sailor named Jackson, lately lung on board the St. Mary's, was an Irishman, a young man of seven-and-twenty, of considerable talent and some education. He was much above the common race of sailors.

State Elections.

GEORGIA. This State has returned four Whigs and four Democrats to Congress.

NEW JERSEY. The Whigs have elected four out of the five members of Congress; same as last year.

NEW YORK.—CONGRESS. The Whigs elect 21 in the districts which we set down for them yesterday.

LEGISLATURE.—It is probable that the Whigs have succeeded in the 3d, 5th, 6th, 7th and 8th districts, and the Democrats in 1st, 2d and 4th.

WE cannot yet tell the precise majority for Mr. YOUNG. It will be somewhere in the neighborhood of 10,000.—Pilot.

OHIO. The Liberty vote for Governor, as far as returned, is 10,708.

PENNSYLVANIA. The Whigs have gained 14 members of the House.

THE SENATE will consist of 22 members, of whom the Whigs have two, the Democrats 20.

MICHIGAN Election. According to all accounts thus far, the Democrats have carried the State about as usual.

THE SENATE will consist of 22 members, of whom the Whigs have two, the Democrats 20. Last year the Whigs had one Senator, who holds over. The newly elected one is Lathrop of Jackson.

of which the Democrats have elected 51, the Whigs 13, two doubtful. Last year the Whigs had 14 members in a House of 53.

THE HOUSE will consist of 66 members, of which the Democrats have elected 51, the Whigs 13, two doubtful.

THE LIBERTY vote. We have been looking for returns from our friends, but they are generally as silent as the grave: of course they cannot get the news of us, favorable or not, unless we get it of them.

CENTREVILLE, Nov. 4, 1846. "We have not as yet received full returns from our County, but enough have been heard to warrant us in putting down our vote for Congressman, Hussey, at 130, which will be about our average vote.

WE gather from the notices in our exchanges, that a portion of the party has deserted the nominations, and gone over to Whiggery. Their statements, however, must be taken with allowance.

A bargain was made before the election between Gordon and the Abolition leaders, which has generally been adhered to throughout the County.

A New Orleans paper has the following notice of this naval murder:—"The sailor named Jackson, lately lung on board the St. Mary's, was an Irishman, a young man of seven-and-twenty, of considerable talent and some education.

Let our patriotic Democrats no longer exclaim against England for flogging her soldiers to death.

ARE these things so; or are they chiefly the slanders of disappointed party men? In Genesee County, the Liberty vote was about the same as last year.

IN BRUCE AND ARMADA, MACOMB CO. the Liberty vote has doubled on last year.

IF our friends don't send us any news, we will try to gather it from official reports of our exchanges next week.

WE should have noticed last week the death of Mr. Kirkland, formerly of Detroit, and subsequently of Livingston County. His body was found in the Hudson River, near Newburgh.

THE True Democrat speaks of the "utter hopelessness of ever uniting the reform and anti-reform Democrats of this county into one party."

THE lines between the old parties are becoming indistinct. The next Presidential election will probably again render them plain to be seen, and more strictly regarded.

PRISONER'S FRIEND. A NEW BOOK STORE.—THE PRISONER'S FRIEND, a weekly periodical devoted to the abolition of Capital Punishment and the Reformation of the Criminal, is published at No. 40 Cornhill, Boston, Massachusetts, by Charles and John M. Spear.

PHILANTHROPIC BOOK STORE. A good assortment of Books, relating to the great moral enterprises of the day, are for sale at the office of the Prisoner's Friend. Many of these Books can be sent by mail.

R. Gordon's Post Office is Ypsilanti, Washtenaw Co. Mich.

WE shall publish the county canvass next week.

DOMESTIC NEWS.

New Hampshire.—Nathaniel P. Rogers, for many years editor of the Herald of Freedom, died at Concord, N. H., on the 10th inst.

Massachusetts.—The Boston Transcript notices a new preparation to produce sleep in patients to be operated on by surgery.

A Lowell correspondent of the Brooklyn Eagle, after mentioning the different places of public worship in the former city, adds:

"The Sabbath Labor Christians," as one of the papers term them—that is, the corporations—have service also nearly every Sunday in the canals.

We understand that Dr. Morton, at the invitation of Dr. Heywood, of the McLean St. Hospital, administered his preparation to produce sleep, yesterday morning, to a man who had a tumor extracted from the neck.

Ohio.—John Harvey of this vicinity, brought to my store, a short time since, an apple which I weighed and measured; its weight was just two pounds, and it measured 16 1/2 inches.

Connecticut.—The City Court of New London has recently imposed a fine of one dollar, and the cost of court, amounting to twenty three dollars and thirteen cents, upon Gen. A. W. Riley, the Temperance lecturer, for obstructing the streets, by delivering a lecture in the same.

New York.—The Convention of New York for amending its constitution, which has been sitting for many weeks past, had adopted a section which secured to married women all their property acquired before or during marriage.

A family in Mentz, Cayuga Co. were recently seized with nausea and spasms, while drinking tea, and on examining the tea kettle a spider of the largest kind was boiled up in the water.

Pennsylvania.—The Philadelphia correspondent of the Tribune writes that a strange and fatal accident occurred in that city on Saturday.

Maryland.—The people of Maryland, by a vote of 31,152 to 25,497, have decided in favor of biennial sessions of the Legislature.

Virginia.—The papers contain numerous notices of the recent tragedy in Richmond, resulting in the death of Mr. Hoyt.

Hoyt, it seems, was a single man, living in Richmond, and keeping a lottery office. At his hotel he became acquainted with Mrs. Virginia Myers, wife of a Virginia gentleman.

To MEND STOVES.—Mr. Editor: I happened to see a paragraph in your paper on mending stoves.

RECRE.—Salt and ashes in equal proportions, and so much of egg as to make the consistency that of putty.

There have been fifty kings, two protectors, and six queens of England: and the regular succession to the throne has been changed ten times since the kingdom was founded by Egbert, 1018 years ago.

WAGES IN EUROPE.—In England the average rate of agricultural wages for an able man with a family, is 9 shillings, or \$1 93 cents per week.

A cataracl has been discovered on the river St. Louis, where it falls into the western extremity of Lake Superior.

A Sunday School in Boonsborough, Ky. was recently disturbed by the keeper of a neighboring grogshop, who rushed in and shamefully abused the superintendent.

A Poor Woman's Eloquentence.—The other day we heard a poor Irish woman describe her love of children.

NEW MODE OF PEN-MAKING.—We are informed that some Yankee has invented a machine whereby common quills are cut up into twenty pens each.

By advertising, thousands are informed at once, and all at the same time, of that which it would be impossible to communicate personally, in proper season.

The following rich scene recently occurred in one of our courts of justice, between the Judge and a Dutch witness all the way from Rotterdam:

Judge—"What's your native language?" Witness—"I peno native, I's a Doochman."

Judge—"What's your mother tongue?" Witness—"O, fader say she pe all tongue!"

Judge—"In an irritable tone." "What language do you speak in the cradle?"

Witness—"I tid not speak no language in the cradle at all; I only cried in Dooch."

THE SPEAKING AUTOMATON.—Various attempts have been made by mechanical agency to imitate the human voice, but hitherto, we believe, with very partial success.

SHORT SERMONS.—Whitefield is reported to have said that a man with the eloquence of an angel, ought not to exceed over forty minutes in the length of a sermon.

MATERIAL FOR NEW STATES.—California will make forty-five States, each the size of New Jersey; and New Mexico is equal to twenty-five New Jerseys.

The Chinese pay annually \$360,000,000 for incense to burn before their idols.

So mote it be! But let us remember that the nations of christendom, containing in the aggregate a population about equal to that of China, pay annually a sum at least twice as great as this for the service of their God Moloch!

GOLD.—It is said that gold has been discovered in such quantities in Siberia, as to endanger its present value.

A catacract has been discovered on the river St. Louis, where it falls into the western extremity of Lake Superior.

A Sunday School in Boonsborough, Ky. was recently disturbed by the keeper of a neighboring grogshop, who rushed in and shamefully abused the superintendent.

The PROGRESS OF FREE TRADE.—The Czar of Russia has already relaxed his tariff, and to show his appreciation of the free trade movement in England, he has caused the great speech made by Sir Robert Peel in the House of Commons, in favor of commercial liberty, to be translated into the Russian language.

The only living brother of Napoleon is now the Prince de Montfort, ex-King of Westphalia, who is in his sixty-second year.

COMMERCIAL.

ANN ARBOR, NOV. 13.—Wheat brings 62 1/2 cents per bushel.

BUFFALO, NOV. 8. The advices by the Britannia received here by Telegraph on Saturday were incoherent, and as they were despatched westward by the Hendrick Hudson, they will no doubt occasion heavy losses to persons west who may be influenced by them.

The London correspondent of the N. York Courier and Enquirer, a Whig paper, in his letter of Sept. 21st, says that the farmers of the great corn-growing States may depend on a permanent demand for Indian corn, at about 30 s. per quarter, equal to 95 to 100 cents a bushel in England, or 60 cents in New York.

What do Mr. Clay and Mr. Webster and Mr. Hudson say to that? He says the demand is now for human food, but in ordinary times it will be wanted partly for animals, to supply the greatly increased demand for butcher's meat.

We give the following table of bread-stuffs exported from the port of N. York for eight months, from the 1st of January, 1845, and 1846:

Table showing wheat, flour, and other commodities with their respective quantities and prices for 1845 and 1846.

The quantity brought to tide water through the Erie Canal, from the commencement of navigation to the 7th of October, in the years 1845 and 1846, is as follows:

Table comparing wheat and flour quantities for 1845 and 1846, including a comparison with the corresponding period of last year.

By reducing the Wheat to Flour, the quantity left at tide water this year compared with the corresponding period of last year, shows an excess equal to 717,116 barrels of flour.

At a meeting of the Board of Supervisors, for the County of Washtenaw, held pursuant to the statute, at the Court House, in the village of Ann Arbor, in said County, on Monday, the 12th day of October, in the year 1846;

On motion, the Board appointed the following persons as a Committee on Claims, viz: Messrs. Lazzell, Vanclve, Haywood, Wellman and Tibbetts.

On motion, the Chair appointed the following persons as a Committee on Roads and Bridges, viz: Messrs. Aulla, Ball and Pomeroy.

On motion, the Chair appointed the following persons as a Committee to settle with the County Treasurer, viz: Messrs. Watt, Whitmore, Vanclve, Haywood and Case.

On motion, the Chair appointed the following persons as a Committee on Equalization, viz: Messrs. Whitmore, Carver, Forsyth and Salzer.

On motion, the Board adjourned until to-morrow morning at 9 o'clock.

CLOVER MACHINES. THRESHING MACHINES and Separators are made and sold by the subscribers, at their Machine Shop, near the Paper Mill, Lower Town, Ann Arbor, KNAPP & HAVILAND, Jan. 19, 1846.

THE PRECEDING figure is given to represent the Insensible Perspiration. It is the great evacuation for the impurities of the body. It will be noticed that a thick cloudy mist issues from all points of the surface, which indicates that this perspiration flows uninterruptedly when we are in health, but ceases when we are sick. Life cannot be sustained without it. It is thrown off from the blood and other juices of the body, and disposes by this means, of nearly all the impurities within us. The blood, by this means, purifies itself pure. The language of Scripture is, "in the Blood is the Life." If it ever becomes impure, it may be traced directly to the stoppage of the Insensible Perspiration. It never requires any internal medicines to cleanse it, as it always purifies itself by its own heat and action, and throws off all the offending humors, through the Insensible Perspiration. Thus we see all that is necessary when the blood is stagnant, or infected, is to open the pores, and it relieves itself from all impurities instantly. Its own heat and vitality are sufficient, without one particle of medicine, except to open the pores upon the surface of the skin, and only the most direct remedies. All practitioners, however, direct their efforts to restore the Insensible perspiration, but it seems to be not always the proper one. The Thompsonian, for instance, uses the Hydropathic remedies as in weak cases, and the Homoeopathic does out infinitesimally, the Allopathic bleeds and deals with mercury, and the blustering Quack gorges us with pills, pills, pills.

To give some idea of the amount of the Insensible Perspiration, we will state that the learned Dr. Lewis, and the great Boerhaave, ascertained five-eighths of all we receive into the stomach, passed off by this means. In other words, if we eat and drink eight pounds per day, we evacuate five pounds of it by the Insensible Perspiration. This is none other than the used up particles of the blood, and other juices giving place to the new and fresh ones. To check this, therefore, is to retain in the system five-eighths of all the vitiated matter that nature demands should leave the system. And this is not only the most direct, but is of so active a principle, that it determines to those particles to the skin, where they form scales, pimples, ulcers, and other spots. By a sudden transition from heat to cold, the pores are stopped, the perspiration ceases, and the skin becomes dry and scaly. Hence, a stoppage of this flow of the juices, originates so many complaints. It is by stopping the pores, that overwhelms mankind with coughs, colds, and consumptions. Nine-tenths of the world die from diseases induced by a stoppage of the Insensible Perspiration. It is easily seen, therefore, how necessary is the flow of this subtle humor to the surface, to preserve health. It cannot be stopped, it cannot be checked, and it cannot be induced, except by the use of the Insensible Perspiration.

Let me ask now, every candid mind, to compare seems the most reasonable to pursue, to unstop the pores, after they are closed? Would you give physic to unstop the pores? Or would you apply something that would stop the pores, where they have been closed? Would not this be common sense? And yet I know of no physician who makes any external application to effect it. The reason I assign is, that no medicine within their knowledge, is capable of doing it. Under these circumstances, I present to you the Insensible Perspiration. It is MEALSTER'S ALL HEALING OINTMENT, or THE WORLD'S SALVE! It has power to restore perspiration on the feet, on the head, a round sore upon the chest, in short, upon any part of the body, whether diseased slightly or severely.

It has power to cause all external sores, scrofulous humors, skin diseases, poisonous wounds, to discharge their putrid matter, and then heal them. It is a remedy that sweeps off the whole catalogue of cutaneous disorders, and restores the entire cuticle to its healthy functions. It is a remedy that forbids the necessity of so many and deleterious drugs taken into the stomach. It is a remedy that neither sickens, gives inconvenience, or is dangerous to the intestines. It preserves and defends the surface from all derangement of its functions, while it keeps open the channels for the blood to void all its impurities and dispose of all its useless particles. It is a remedy that does not injure the skin one particle, while it will pass through all the pores of the bowels. JAMES McALISTER & CO., 168 South Street, N. York.

Sole proprietor of the above Medicine, to whom all communications must be addressed (post paid). Price 50 cents per box.

CAUTION. AS the All-Healing Ointment has been greatly counterfeited, we have given this caution to the public, that "no Ointment will be genuine unless the names of James McAlister, or James McAlister & Co., are written with a pen upon every label." The label is a steel engraving, with the figure of "Insensible Perspiration" on the face.

Now we hereby offer a reward of \$500, to be paid on conviction, in any of the constituted courts of the United States, of any individual counterfeiting the name and Ointment of JAMES McALISTER'S ALL HEALING OINTMENT, or THE WORLD'S SALVE, by any Wholesale Agents; Smith & Tyrell, Clinton; Ketchum & Smith; Tecumseh; D. C. Whitwood; Dexter; H. Bower, Manchester; John Owen & Co., Detroit; Harman & Cook, Brooklyn. Dec. 18, 1845.

OYSTERS! OYSTERS!! OYSTERS!!! ROWE & Co., having thoroughly completed their arrangements, are now prepared to furnish the citizens of Detroit and vicinity with SUPERIOR QUALITY, at the lowest prices. They intend making a regular business of it, and will receive daily, by express, and keep constantly on hand, FRESH AND OPENED OYSTERS of a quality that cannot be surpassed. They will be put in Cans or Kegs that hold from one quart to two gallons. We do not wish you to take our word for the above, but to call and try us.

HATS AND CAPS. IN all their varieties, also Cams, Silk and Gingham Umbrellas, Suspenders, rich Silk Scarfs and Cravats, Silk, Linen and Kid Gloves, with every article in that line can be had at fair prices and warranted to suit by sending your wishes by letter or by calling at No. 53, Woodward Avenue, 3 Doors north of Doisy's Auction Room, Detroit, Michigan. My particular selections as to price, quality, and size, will suit the wants of the people. Their stock of Leather and Findings is also complete. The retail trade continues as usual on the first floor, CORNER OF JEFFERSON AND WOODWARD AVENUES. A. C. MCGRAW & CO., Detroit, Aug. 22, 1846.

NEW TO MEDICAL BOOKS. A NEW lot of Medical Books, just opened and for sale cheap for cash at PERRY'S. Its first action is to excel all humor. It will not cease drawing till the face is free from any morbid matter that may be lodged under the skin any frequently breaking out to the surface. It then heals. When there is nothing but grossness, or dull repulsive surface, it begins to soften and soften until the skin becomes as smooth and delicate as a child's. It throws a freshness and blushing color upon the now white, transparent skin, that is perfectly enchanting. Some times in case of Freckles it will first start out on the face that have lain hidden and seen but seldom. Pursue the Salve and all will soon disappear.

THE undersigned having returned from New York with a new, large and valuable stock of Books, Stationery and Paper Hangings, is now ready to sell for Cash, any thing in his line at his new stand on Main Street, opposite H. Becker's Brick Store. He will say to Book purchasers, that, by his efforts last fall on his return from New York, the price of nearly every thing in his line has been sold less than heretofore, and had it not been for him, purchasers would have continued to pay the prices heretofore charged. He can say also, that his sales have been beyond his most sanguine expectations, showing conclusively that a public benefactor, although ever so small, will not go unrewarded in this enlightened community. He is thankful for the favors already bestowed, and would respectfully solicit a continuance of the trade; and he would say to those who never have purchased books of him, that he will show them articles and prices with pleasure at any time they may call whether they wish to purchase or not. Cash orders from the country will be attended to, and the books packed as well as if the persons were present to attend the purchases. He will also sell to children as cheap as their parents. Purchase a will do well to examine his stock and prices before purchasing elsewhere. Don't forget the place; be sure you call at PERRY'S BOOK STORE, on Main Street, a few doors South of the Public Square. WM. R. PERRY, Ann Arbor, June 27, 1846.

BOOKS! BOOKS!! NEW COOKING STOVE. THE undersigned having returned from New York with a new, large and valuable stock of Books, Stationery and Paper Hangings, is now ready to sell for Cash, any thing in his line at his new stand on Main Street, opposite H. Becker's Brick Store. He will say to Book purchasers, that, by his efforts last fall on his return from New York, the price of nearly every thing in his line has been sold less than heretofore, and had it not been for him, purchasers would have continued to pay the prices heretofore charged.

And Stoves of all kinds. The subscriber would call the attention of the public to Woolson's Hot Air Cooking STOVE. Which he can confidently recommend as being decidedly superior to any Cooking Stove in use. For simplicity in operation—economy in fuel and for unequalled BAKING and ROASTING qualities, it is unrivalled. The new and important improvement introduced in its construction being such as to insure great advantages over all other kinds of Cooking Stoves. WILLIAM R. NOYES, Jr., 76 Woodward Avenue, Detroit, Dec. 12, 1845.

"Crockery at Wholesale." FREDERICK WETMORE, has constantly on hand, the largest stock in the West of Crockery, China, Glassware, Looking Glasses and Plates, Britannia Ware Trays, Lamps and Wickings, Plated Ware, China Toys, &c. &c.
